View SqueezeTrigger: http://www.digitalbdinc.com/images/sdotstr8-22-25.JPG

View Friction Factor: http://www.digitalbdinc.com/images/sdotff8-22-25.JPG

Friction Factor calculates if a fair market is being made in the shares of SDOT. 46% of the previous 39 trading days have been positive or bullish-biased and 54% have been negative or bearish-biased.

Regulation SHO requires bona-fide market-making activities to include making purchases and sales in roughly comparable amounts. The Commission has stated that bona-fide market-making DOES NOT include activity that is related to speculative selling strategies for investment purposes of the broker-dealer and is disproportionate to the usual market making patterns or practices of the broker-dealer in that security. Likewise, where a market-maker posts continually at or near the best offer but does not also post at or near the best bid, the market-maker's activities would not generally qualify as bona-fide market-making. Moreover, a market-maker that continually executes short sales away from its posted quotes would generally not be engaging in bona-fide market-making.

Digital BD monitors SDOT market-makers daily for compliance with Fair Market-Making Requirements.

About Sadot Group

Sadot Group Inc. has rapidly established itself as an emerging player in the global food supply chain. Sadot Group provides innovative and sustainable supply chain solutions that address the world's growing food security challenges.
